Food Made Good Preliminary Rating - **NOT FINAL SCORE**

INTRODUCTION

Thank you for taking part in The Sustainability Award as part of World's 50 Best Restaurants.

We're all playing our part in imagining, creating and nudging towards a better food system. We can learn a lot from each other. We thank you for taking the time to go through this rating process, and we are committed to making this time valuable by turning your rating into an action plan, and working together to create change.

This preliminary rating is a snapshot of how you performed in the Sustainability rating. If you choose to work with us you can undertake our full sustainability rating. We can then provide you with a detailed report which will include some new ways to look at your performance and spot opportunities to improve practice. You'll also receive a host of marketing materials to help you promote your achievements to customers and staff.

Through membership of the SRA, we can help you:

- Enhance your reputation and gain new customers
- Drive efficiency, decrease waste and energy costs
- Improve staff retention and engagement
- Find new and better products and suppliers
- Develop clearer messaging and priorities around people and planet

We understand the challenging operating environment, but we believe there's never been a better time for businesses to show leadership on the issues that matter most to them. We look forward to continuing our work together.
